Biography:

Al is a graduate of North Carolina State University with a degree in Civil Engineering. He has been employed with the Department of Transportation (DOT) for over 22 years and has spent his entire career with Traffic Engineering. His work experience includes a brief stint in the Signing Unit and over fifteen years in the Signals and Geometrics Unit. During the past few years, he transferred over to Traffic Operations where he currently works.

Currently, Al is the Sandhills Regional Traffic Engineer. In this capacity, he provides technical assistance, engineering expertise and investigative support to Divisions 6 and 8 with the objective of improving the safety of North Carolina's streets and highways.
